Applicant's arguments filed on 09 September 2003 have been fully considered. Amended claims 1-4 and 6-22 are therefore allowed with the additional limitations included as well as newly added claims 23-25 which are the originally objected to claims written in independent form.

The following is an examiner's statement of reasons for allowance: Claims 23-25 are allowable for the reasons set forth in the previous Office action (paper number 3, mailed 07 May 2003). In regards to Claims 1-4 and 6-22, the prior art of record in this application fails to disclose or reasonably suggest a tunable optical filter with a cavity having two mirrors that define the cavity length, where both mirrors are movable and one is bifurcated to create an auxiliary gap between the upper and lower portion of the bifurcated mirror. The closest prior art of record is U.S. Patent 6,275,324 to Sneh. Sneh discloses a tunable optical filter with an optical cavity having a determinable length, a tuning device to alter the length of the optical cavity and a filter disabling means to disrupt the transmissibility of the fiber. Sneh further discloses the optical cavity to be defined by two spaced mirrors where one of the mirrors is moveable and tiltable and part of the filter-disabling device. However, Sneh does not teach or suggest one of the mirrors to be a bifurcated mirror with an auxiliary gap between.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
